

Parkinson's Support Group

1

Supporting those with Parkinsons

Are you someone that has Parkinson's disease? This can be a heartbreaking diagnosis, and having a support group can ease some of that stress.

2

Sharing experiences

This support group is made for sharing, caring, and connecting with others that have Parkinson's disease. We will thrive in a supportive setting together.

3

Caregiver support

This group will also provide a calm, and inclusive environment for caregivers. This disease can be hard to navigate, and we will contribute to management.

4

Education

As uniquely qualified Speech Language Pathologists, we can discuss a variety of topics related to Parkinson's disease management.

5

When will this take place?
